Russian Criminal Tattoo Police Files-Arkady Bronnikov 2016-03-07 This book features over 180 photographs and accompanying texts of Russian criminal tattoos from the Arkady Bronnikov collection. From the mid-1960s to the late- 1980s Bronnikov worked as a senior expert in criminalistics at the USSR Ministry of Internal Affairs, part of his duties involved visiting correctional institutions of the Ural and Siberia regions. It was here that he interviewed, gathered information and took photographs of convicts and their tattoos, building one of the most comprehensive archives of this phenomenon. He regularly helped to solve criminal cases across Russia by using his collection of tattoos to identify culprits and corpses. The Bronnikov collection was made exclusively for police use, to further the understanding of the language of these tattoos and to act as an aid in the identification and apprehension of criminals in the field. Unimpeded by artistry, these vernacular photographs present a guileless representation of criminal society. Every image discloses evidence of an inmate's character: aggressive, vulnerable, melancholic, conceited. Their bodies display an unofficial history, told not just through tattoos, but also in scars and missing digits. Closer inspection only confirms our inability to comprehend the unimaginable lives of this previously unacknowledged caste.

Russian Prison Tattoos-Alix Lambert 2003 For centuries, Russian prison inmates forcibly initiated newcomers with tattoos. Gradually, prisoners developed a secret form of communication with their tattoos, allowing them to establish rank among the other inmates and maintain a clandestine hierarchy. This book explores the grisly reality of Russian prisons and the people who inhabit them. Over 190 black and white and color photographs expose the different tattoos and their meanings, ranging from churches, crosses, Christs, Madonnas, military symbols, cats, dolphins, bears, hawks, and other startling images. Documentary filmmaker Alix Lambert traveled around modern Russia to film these sinister environments, collected stories to identify the dying art of tattooing in Russian prisons, and detailed the lives of the heavily marked inmates, past and present. This fascinating, spine-tingling book provides an entirely new outlook on tattoos and what they can represent!

Russian Criminal Tattoo Encyclopaedia-Stephen Sorrell 2012-06-30 Edited by Damon Murray, Stephen Sorrell.

Drawings from the Gulag-Dant'sjik Sergeevich Baldaev 2010 Drawings from the Gulag consists of 130 drawings by Danzig Baldaev describing the history, horror and peculiarities of the Gulag system from its inception in 1918. Baldaev's father, a respected ethnographer, taught him techniques to record the tattoos of criminals in St Petersburg's notorious Kresty prison, where he worked as a guard. He was reported to the KGB who unexpectedly supported his work, allowing him the opportunity to travel across the former USSR. Witnessing scenes of everyday life in the Gulag, he chronicled this previously closed world from both sides of the wire. With every vignette, Baldaev brings the characters he depicts to vivid life: from the lowest zek (inmate) to the most violent tattooed vor (thief), all the practices and inhabitants of the Gulag system are depicted here in incredible, and often shocking, detail. In documenting the attitude of the authorities to those imprisoned, and the transformation of those citizens into survivors or victims of the Gulag system, this 'graphic novel' vividly depicts methods of torture and mass murder undertaken by the administration, as well as the atrocities committed by criminals on their fellow inmates.

Soviets-Danzig Baldaev 2014 Soviets features unpublished drawings from the archive of Danzig Baldaev. They satirize the Communist Party system, exposing the absurdities of Soviet life from drinking (Alcoholics and Shirkers) to the Afghan war (The Shady Enterprise), via dissent (Censorship, Paranoia and Suspicion) and religion (Atheism as an Ideology). Baldaev reveals the cracks in the crumbling socialist structure, detailing the increasing hardships tolerated by a population whose leaders are in pursuit of an ideal that will never arrive. Dating from 1950s to the period immediately before the fall of the Soviet Union in 1991, his caricatures depict communisms winners and losers: the corruption of its politicians, the stagnation of the system, and the effect of this on the ordinary soviet citizen. Baldaevs drawings are contrasted with classic propaganda style photographs taken by Sergei Vasiliev for the newspaper Vercherny Chelyabinsk. These photographs portray a world the Party leaders dreamed of: where workers fulfilled their five-year plans as parades of soldiers and weapons rumbled through Red Square. This book examines both broadly and in minute detail the official fiction and the austere, bleak reality, of living under such a system.

Russian Criminal Playing Cards-Damon Murray 2018-10-11 A complete standard Western deck of 52 playing cards and 2 jokers, making them suitable for any card game. This deck of cards has been put together using four different sets (one for each suit) made by Russian criminals in prisons during the 1980s. Prohibited by the prison authorities, they are constructed from innocuous materials procured from the everyday routine of prison life, their unique designs skillfully manipulated so that they could be read. The respect commanded by any criminal was directly related to his ability to play, and win, at cards. Being 'lucky' at cards was also seen as a good omen

–(even if the winner cheated, as this practice is acceptable within the thieves world). A thief could stake anything in a card game, a finger, an arm, the life of another inmate, or even his own. If he lost, the debt had to be paid immediately. The penalty for defaulting was expulsion, a forcibly applied tattoo or in some cases, death. Confiscated and destroyed by the authorities, original decks are difficult to obtain and often incomplete. The authentic designs reproduced here have been taken from original cards collected over the last ten years by the authors. A standard Russian deck contains only 36 cards. This pack has been adapted to make a complete standard Western deck of 52 cards.

Mitch O'Connell Tattoos-Mitch O'Connell 2007 Collects 250 tattoo designs by Mitch O'Connell--The best of his three sets of tattoo flash: "Stewed, Screwed and Tattooed," "Done While Drunk," and "From the Bottom of the Barrel." Mitch O'Connell's art is reminiscent of the Old School Tattoo Art, from masters such as Sailor Jerry Collins and Don Ed Hardy; but it uses a more contemporary sense of themes, along with O'Connell's distinctive style. A runaway best-seller, this book has garnered more tattoo industry praise than any other in recent memory.

Telling October-Frederick Corney 2018-08-06 All revolutionary regimes seek to legitimize themselves through foundation narratives that, told and retold, become constituent parts of the social fabric, erasing or pushing aside alternative histories. Frederick C. Corney draws on a wide range of sources—archives, published works, films—to explore the potent foundation narrative of Russia's Great October Socialist Revolution. He shows that even as it fought a bloody civil war with the forces that sought to displace it, the Bolshevik regime set about creating a new historical genealogy of which the October Revolution was the only possible culmination. This new narrative was forged through a complex process that included the sacralization of October through ritualized celebrations, its institutionalization in museums and professional institutes devoted to its study, and ambitious campaigns to persuade the masses that their lives were an inextricable part of this historical process. By the late 1920s, the Bolshevik regime had transformed its representation of what had occurred in 1917 into a new orthodoxy, the October Revolution. Corney investigates efforts to convey the dramatic essence of 1917 as a Bolshevik story through the increasingly elaborate anniversary celebrations of 1918, 1919, and 1920. He also describes how official commissions during the 1920s sought to institutionalize this new foundation narrative as history and memory. In the book's final chapter, the author assesses the state of the October narrative at its tenth anniversary, paying particular attention to the versions presented in the celebratory films by Eisenstein and Pudovkin. A brief epilogue assesses October's fate in the years since the collapse of the Soviet Union.

Building a new New World-Jean-Louis Cohen 2021-01-12 An essential exploration of how Russian ideas about the United States shaped architecture and urban design from the czarist era to the fall of the U.S.S.R. Idealized representations of America, as both an aspiration and a menace, played an important role in shaping Russian architecture and urban design from the American Revolution until the fall of the Soviet Union. Jean-Louis Cohen traces the powerful concept of "Amerikanizm" and its impact on Russia's built environment from early czarist interest in Revolutionary America, through the spectacular World's Fairs of the 19th century, to department stores, skyscrapers, and factories built in Russia using American methods during the 20th century. Visions of America also captivated the Russian avant-garde, from El Lissitzky to Moisei Ginzburg, and Cohen explores the ongoing artistic dialogue maintained between the two countries at the mid-century and in the late Soviet era, following a period of strategic competition. This first major study of Amerikanizm in the architecture of Russia makes a timely contribution to our understanding of modern architecture and its broader geopolitics.

The Tattooed Lady-Amelia Klem Osterud 2014-11-06 Living in a time when it was scandalous even to show a bit of ankle, a small number of courageous women covered their bodies in tattoos and traveled the country, performing nearly nude on carnival stages. These gutsy women spun amazing stories for captivated audiences about abductions and forced tattooing at the hands of savages, but little has been shared of their real lives. Though they spawned a cultural movement—almost a quarter of Americans now have tattoos—these women have largely faded into history. The Tattooed Lady uncovers the true stories behind these women, bringing them out of the sideshow realm and into their working class realities. Combining thorough research with more than a hundred historical photos, this updated second edition explores tattoo origins, women's history, circus lore, and includes even more personal and professional details from modern tattooed ladies. A fascinating read, The Tattooed Lady pays tribute to a group of unique and amazing women whose legacy lives on.

Stigma-Erving Goffman 2009-11-24 From the author of *The Presentation of Self in Everyday Life*, *Stigma* analyzes a person's feelings about himself and his relationship to people whom society calls "normal." *Stigma* is an illuminating excursion into the situation of persons who are unable to conform to standards that society calls normal. Disqualified from full social acceptance, they are stigmatized individuals. Physically deformed people, ex-mental patients, drug addicts, prostitutes, or those ostracized for other reasons must constantly strive to adjust to their precarious social identities. Their image of themselves must daily confront and be affronted by the image which others reflect back to them. Drawing extensively on autobiographies and case studies, sociologist Erving Goffman analyzes the stigmatized person's feelings about himself and his relationship to "normals" He explores the variety of strategies stigmatized individuals employ to deal with the rejection of others, and the complex sorts of information about themselves they project. In *Stigma* the interplay of alternatives the stigmatized individual must face every day is brilliantly examined by one of America's leading social analysts.

Handbook of Christian Symbolism-William Audsley 1865

Jerusalem Tattoos-Alessandra Borroni 2020-01-11 Around the 13th century, among the Crusaders and Christian pilgrims who went to Jerusalem, the custom of marking their skin with tattoos began to spread, as a symbol of their Christianity and their stay in the Holy Land. If we dig through the origins of this custom we discover that it was already practised by Egyptian Christians of the early centuries. Copts, Crusaders, Franciscans, Armenians, Dragomans and pilgrims have ensured that the tradition of sacred tattooing in this city has been continuous, without interruption; so much so that even today in Jerusalem a family exists that for many centuries has continued to tattoo ancient drawings on the skin of pilgrims.

Sailor Jerry's Tattoo Stencils II-Kate Hellenbrand 2002 "Sailor Jerry"

Collins of Honolulu, Hawaii, is arguably the greatest tattoo artist of the 21st Century. Now in a second volume more of his great stencils are reproduced. Hand-cut, hundreds of these basic line works for the pin-ups to the military/political cartoons are printed here for the first time. The pages are perforated to make it easier for today's tattoo artist to display the work of this master.

Skin Deep-Steven Burton 2017-09-19 For decades now tattoos have been potent symbols of the Los Angeles gang-life scene. The black and white tattoos with recognizable gang symbols appear on members' faces, necks and all over their bodies, making their gang affiliation immediately clear to whomever crosses their path. This can mean the difference between life and death on the streets, and just as often, in prison. What does this prominently placed imagery mean for those men and women who somehow extricate themselves from gang life or are released from prison or want to separate themselves from the gang and start life anew? The very tattoos which may have helped guard against the constant threat of rival gangs now bar many ex-gang members from employment, life without harassment, and the freedom to move on from a past they have worked hard to overcome. Skin Deep is a photography project that seeks to show the effects of this ongoing gang conflict in Los Angeles. Photographer Steven Burton set out to photograph realistic portraits of former gang members who are trying to escape the revolving door of death and prison. For these men and women, the aftermath of gang life is not only carried within--it is also scrawled across their faces and bodies. Skin Deep uniquely highlights the impact tattoos have on the way a person is perceived by showing what each participant might look like without them. Utilizing before and, thanks to the advantages of Photoshop, after photographs, these men and women got a chance to see what they'd look like without the inked visual armor. After the bare images were presented to each, they were asked to talk about themselves and their families, what tattoos represent to them, and their aspirations for the future. Seeing themselves without tattoos--many for the first time in decades--naturally brought about a wide range of emotions, recollections, hopes, and dreams, with responses such as: "I am shocked. I don't know what to say about this. I am going to give this to my mom, she is going to be so happy." "I think this guy in the pictures would judge the one with tattoos right off the top." "That's crazy, that looks real crazy. Those came out cool man! I think I like it better without the tattoos." Burton met his subjects thanks to Father Greg Boyle, the founder of Homeboy Industries in LA, and the entire project is inspired by his tireless work to help rehabilitate these former gang members and give them all a crucial second chance in life. Skin Deep offers a chance to expose the realities these individuals face when trying to rebuild their lives and re-enter society. As importantly, for the public, the project provokes consideration regarding how society perceives and judges people with tattoos and violent pasts and seeks to garner empathy for those caught in the crosshairs of gang life as they try to change their futures.

Notes from Russia-Aleksē Pluŕser-Sarno 2007 Notes from Russia is an attempt to paint a socio-psychological portrait of Russia based on anonymous street texts. Handwritten advertisements (ads), love letters, popular announcements, obscene scrawls, self-made warning signs, and even pieces of cardboard on string worn by beggars - all help build a unique image of the country. All of these street messages are completely authentic, and are published here for the first time. These messages are social acts that originate in the sphere of so-called grey, informal social groupings and 'illegal' markets, which are particularly interesting in Russia. The very existence of these markets is a result of the insurmountable bureaucratic obstacles that these messages also clearly reflect.

Алкоголь-Damon Murray 2017 Includes two essays by Alexei Plutser-Sarno.

Ecologies of Prosperity for the Living-Margarita Jover 2019-03 This publication puts forward the idea that urbanization is the result of a certain relationship between the territory and the society who inhabits it. Thus, without transforming the way societies inhabit the territory and its intrinsic motivations another type of city-territory cannot be built. The publication collects these motivations that could fuel this transformation and classifies them into three categories: Novel Synergies, Instrumental Commons, and Dispersed Concentrations.

Rather than attempt to alleviate or rise above life's trauma, the Crap Hound Big Book of Unhappiness instead enthusiastically catalogues popular culture's attempts to illustrate, channel and finally exploit our anxieties. Between a brief introduction and the end credits, the Crap Hound Big Book of Unhappiness is pure vintage 20th century imagery, carefully collected from old catalogues, advertising, obscure books, and found ephemera.

A Mountain of Crumbs-Elena Gorokhova 2010-01-12 Elena Gorokhova's A Mountain of Crumbs is the moving story of a Soviet girl who discovers the truths adults are hiding from her and the lies her homeland lives by. Elena's country is no longer the majestic Russia of literature or the tsars, but a nation struggling to retain its power and its pride. Born with a desire to explore the world beyond her borders, Elena finds her passion in the complexity of the English language--but in the Soviet Union of the 1960s such a passion verges on the subversive. Elena is controlled by the state the same way she is controlled by her mother, a mirror image of her motherland: overbearing, protective, difficult to leave. In the battle between a strong-willed daughter and her authoritarian mother, the daughter, in the end, must break free and leave in order to survive. Through Elena's captivating voice, we learn not only the stories of Russian family life in the second half of the twentieth century, but also the story of one rebellious citizen whose curiosity and determination finally transport her to a new world. It is an elegy to the lost country of childhood, where those who leave can never return.

Chernobyl: A Stalkers' Guide-Darmon Richter 2020-09-22 Drawing on unprecedented access to the Chernobyl Exclusion Zone--including insights gained while working as a tour guide and during an illegal "stalker" hike--Darmon Richter creates an entirely new portrait of Chernobyl's forgotten ghost towns, monuments and more. Since the first atomic bomb was dropped, humankind has been haunted by the idea of nuclear apocalypse. That nightmare almost became reality in 1986, when an accident at the USSR's Chernobyl Nuclear Power Plant triggered the world's worst radiological crisis. The events of that night are well documented--but history didn't stop there. Chernobyl, as a place, remains very much alive today. More than a quarter of a million tourists visited the Zone over the last few years, while millions more watched the acclaimed 2019 HBO mini-series Chernobyl. In Chernobyl: A Stalkers' Guide, researcher Darmon Richter journeys into the contemporary Exclusion Zone, venturing deeper than any previously published account. While thousands of foreign visitors congregate around a handful of curated sites, beyond the tourist hotspots lies a wild and mysterious land the size of a small country. In the forests of

Chernobyl, historic village settlements and Soviet-era utopianism have lain abandoned since the time of the disaster--overshadowed by vast, unearthly megastructures designed to win the Cold War. Richter combines photographs of discoveries made during his numerous visits to the Zone with the voices of those who witnessed history--engineers, scientists, police and evacuees. He explores evacuated regions in both Ukraine and Belarus, finding forgotten ghost towns and Soviet monuments lost deep in irradiated forests, gains exclusive access inside the most secure areas of the power plant itself, and joins the "stalkers" of Chernobyl as he sets out on a high-stakes illegal hike to the heart of the Exclusion Zone.
