But amid the bougainvillea and stunning vistas of southern Italy, something changes. Gwen begins to live in the moment-- skipping down stone staircases in Capri, running her fingers over a glacier in view of the Matterhorn, racing through the Louvre, and taste-testing pastries at a Marseilles cafe. Reveling in every new experience--especially her attraction to a charismatic British physics professor--Gwen discovers that the ancient wonders around her are nothing compared to the renaissance unfolding within. . .
