The Busy Body Book-Lizzy Rockwell 2012-11-28 A celebration of the amazing human machine and a life on the move! Your amazing body can jump, sprint, twist, and twirl. Your body is built to move. Lizzy Rockwell explains how your bones and muscles, heart and lungs, nerves and brain all work together to keep you on the go. Kids walk and skate and tumble through these pages with such exuberance that even sprouting couch potatoes will want to get up and bounce around—and that’s the ultimate goal. Studies show that American kids are becoming more sedentary and more overweight and that they carry these tendencies with them into adolescence and adulthood. Experts agree that we need to help kids make physical activity a life-long habit. Through education, information, and encouragement, this book aims to inspire a new generation of busy bodies!

About Love-Anton Chekhov 2012-10-09 Written in France toward the end of his career, these stories are Chekhov’s only attempt at the linked collection. "A Man in a Shell" is a grotesque Gogolian comedy; "Gooseberries" a narrator's impassioned response; and "About Love" a poignant story of failed relationships. Translated by the impeccable David Helwig and fabulously illustrated by Seth, About Love is essential for any Chekhov enthusiast. David Helwig is the author of twenty volumes of fiction and fourteen volumes of poetry, an Officer of the Order of Canada, and former poet laureate of Prince Edward Island.

Purgatory-William Butler Yeats 1986 From reviews of The Cornell Yeats series: "For students of Yeats the whole series is bound to become an essential reference source and a stimulus to important critical re-readings of Yeats’s major works. In a wider context, the series will also provide an extraordinary and perhaps unique insight into the creative process of a great artists."-Irish Literary Supplement "I consider the Cornell Yeats one of the most important scholarly projects of our time."-A. Walton Litz, Princeton University, coeditor of The Collected Poems of William Carols Williams and Personae: The Shorter Poems of Ezra Pound "The most ambitious of the many important projects in current studies of Yeats and perhaps of modern poetry generally. . . . The list of both general and series editors, as well as prospective preparers of individual volumes, reads like a Who’s Who of Yeats textual studies in North America. Further, the project carries the blessing of Yeats’s heirs and bespeaks an ongoing commitment from a major university press. . . . The series will inevitably engender critical studies based on a more solid footing than those of any other modern poet. . . . Its volumes will be consulted long after gyres of currently fashionable theory have run on."-Yeats Annual (1983) This is the second of two volumes containing transcriptions and in many cases facsimiles of all surviving manuscripts of the poetry that Yeats had published by 1895, together with the later revisions of that poetry.

Unchopping a Tree-W. S. Merwin 2014 There’s no mystery to chopping down a tree. But how do you put back together a tree that’s been felled? Mystical instructions are required, and that’s what W. S. Merwin provides in his prose piece “Unchopping a Tree,” appearing for the first time in a self-contained volume. Written with a poet’s grace, an ecologist’s insights, and a Buddhist’s reverence for life, this elegant work describes the difficult, sacred job of reconstructing a tree. Step by step, page by page, with Merwin’s humble authority, secrets are revealed, and the destroyed tree rises from the forest floor. Unchopping a Tree opens with simplicity and grace: “Start with the leaves, the small twigs, and the nest that have been shaken, ripped, or broken off by the fall; these must be gathered and attached once again to their respective places.” W. S. Merwin, like many conservationists, is quick to say: “When we destroy the so-called natural world around us we’re simply destroying ourselves. And I think it’s irreversible.” Thus the tree takes on a scale that begs the reader’s compassion, and one tree is a parable for the restoration of all nature.

A Small Place-Jamaica Kincaid 2000-04-28 A brilliant look at colonialism and its effects in Antigua--by the author of Annie John "If you go to Antigua as a tourist, this is what you will see. If you come by aeroplane, you will land at the V. C. Bird International Airport. Vere Cornwall (V. C.) Bird is the Prime Minister of Antigua. You may be the sort of tourist who would wonder why a Prime Minister would want an airport named after him--why not a school, why not a hospital, why not some great public monument. You are a tourist and you have not yet seen . . ." So begins Jamaica Kincaid's expansive essay, which shows us what we have not yet seen of the ten-by-twelve-mile island in the British West Indies where she grew up. Lyrical, sardonic, and forthright by turns, in a Swiftian mode, A Small Place cannot help but amplify our vision of one small place and all that it signifies.

Mad Country-Samrat Upadhyay 2017-04-18 Samrat Upadhyay’s new collection vibrates at the edges of intersecting cultures. Journalists in Kathmandu are targeted by the government. A Nepali man studying in America drops out of school and finds himself a part of the unrest in Ferguson, Missouri. A white American woman moves to Nepal and changes her name. A Nepali man falls in love with a mysterious foreign black woman. A rich kid is caught up in his own fantasies of poverty and bank robbery. In the title story, a powerful woman, the owner of a construction company, becomes a political prisoner, and in stark and unflinching prose we see both her world and her mind radically remade. Through the course of the stories in this collection, Upadhyay builds new modes of seeing our interconnected contemporary world. A collection of formal inventiveness, heartbreak and hope, it reaffirms Upadhyay’s position as one of our most important chroniclers of globalization and exile.

The Nepali Flat-Gordon Alexander 2016-06-30 Join Gordon Alexander in Nepal as he drags his 'heavy ass' over the Himalayas in this hilarious, adventure-soaked account of the Three Passes Trek, culminating in a visit to Everest Base Camp.Together with guide Subash and porter Nima, Gordon tackles high passes in excess of 5400 metres (17700ft) and explains how high altitude affects a mildly-overweight road builder from sea level in the tropics. Each part of the journey brings new challenges including sub-freezing temperatures, almost falling into a crevasse, and alarmingly warm beer. Along the way he discovers the local Kukri Rum, traverses glaciers, interacts with eccentric and curious characters, and takes in the most beautiful views on the planet (pictures included).10% of the profits from this book go to the continued rebuilding effort in Nepal, following the devastating earthquake in April, 2015. A Grammar of Dhimal-King John T. 2009 The present work, a grammar of Dhimal, fills an important void in the documentation of the vast and ramified Tibeto-Burman language family. Dhimal, a little known and endangered tongue spoken in the lowlands of southeastern Nepal by about 20,000 individuals, is detailed in this work. With data gathered in the village of hiy b r , the author crafts a readable description of the western dialect, using over 1000 examples to illustrate usage. Included in this reference work are seventeen texts, riddles, songs and a Dhimal-English glossary. Joining other recent ground-breaking linguistic descriptions by researchers from the Himalayan Languages Project at Leiden University, this grammar of Dhimal will have lasting scientific value and aid the Dhimal community in preserving their language.

Being and Hearing-Peter Graif 2018-06-15 How do deaf people in different societies perceive and conceive the world around them? Drawing on three years of anthropological fieldwork in Nepali deaf communities, Being and Hearing shows how questions of cultural difference are profoundly shaped by local habits of perception. Beginning with the premise that philosophy and cultural intuition are separated only by genre and pedigree, Peter Graif argues that Nepali deaf communities--in their social sensibilities, political projects, and aesthetics of expression--present innovative answers to the very old question of what it means to be different. From pranks and protests, to diverse acts of love and resistance, to renewed distinctions between material and immaterial, deaf communities in Nepal have crafted ways to foreground the habits of perception that shape both their own experiences and how they are experienced by the hearing people around them. By exploring these often overlooked strategies, Being and Hearing makes a unique contribution to ethnography and comparative philosophy.

The Language of Chemistry or Chemical Equations-G.D. Tuli & P.L. Soni The Language of Chemistry or Chemical Equations

Civil Society in Uncivil Places-Saubhagya Shah 2008 "This monograph analyzes the role of civil society in the massive political mobilization and upheavals of 2006 in Nepal that swept away King Gyanendra’s direct rule and dramatically altered the structure and character of the Nepali state and politics. Although the opposition had become successful due to a strategic alliance between the seven parliamentary parties and the Maoist rebels, civil society was catapulted into prominence during the historic protests as a result of national and international activities in opposition to the king’s government. This process offers new insights into the role of civil society in the developing world. By focusing on the momentous events of the nineteen-day general strike from April 6-24, 2006, that brought down the 400-year-old Nepali royal dynasty, the study highlights the implications of civil society action within the larger political arena involving conventional actors such as political parties, trade unions, armed revels, and foreign actors. he detailed examination of civil society’s involvement in Nepali regime change sheds light on four important themes in the study of civil society. The first relates to a clear distinction between civil society as a spontaneous philosophical and associational form in the West and its mimetic articulation in the developing. The second addresses the nature of the relationship between civil society and political society and the way the former generates its moral authority and efficacy based on claims to universal reason, knowledge, and techniques of polymorphous power. The third theme explores the connection between the ideological and material basis of civil society and distinguishes between its autonomous Western origin and the recent growth in the developing world. Finally, civil society is examined in the international area: the example of Nepal reveals ways in which civil societies in the developing world are burgeoning as alternative policy instruments in interstate relations"--P. Rituals of Ethnicity-Sara Shneiderman 2015-02-02 Rituals of Ethnicity is a transnational study of the relationships between mobility, ethnicity, and ritual action. Through an ethnography of the Thangmi, a marginalized community who migrate between Himalayan border zones of Nepal, India, and the Tibetan Autonomous Region of China, Shneiderman offers a new explanation for the persistence of enduring ethnic identities today despite the increasing realities of mobile, hybrid lives. She shows that ethnicization may be understood as a process of ritualization, which brings people together around the shared sacred object of identity. The first comprehensive ethnography of the Thangmi, Rituals of Ethnicity is framed by the Maoist-state civil conflict in Nepal and the movement for a separate state of Gorkhaland in India. The histories of individual nation-states in this geopolitical hotspot—as well as the cross-border flows of people and ideas between them—reveal the far-reaching and mutually entangled discourses of democracy, communism, development, and indigeneity that have transformed the region over the past half century. Attentive to the competing claims of diverse members of the Thangmi community, from shamans to political activists, Shneiderman shows how Thangmi ethnic identity is produced collaboratively by individuals through ritual actions embedded in local, national, and transnational contexts. She builds upon the specificity of Thangmi experiences to tell a larger story about the complexities of ethnic consciousness: the challenges of belonging and citizenship under conditions of mobility, the desire to both lay claim to and remain apart from the civil society of multiple states, and the paradox of self-identification as a group with cultural traditions in need of both preservation and development. Through deep engagement with a diverse, cross-border community that yearns to be understood as a distinctive, coherent whole, Rituals of Ethnicity presents an argument for the continued value of locally situated ethnography in a multisited world. Himalayan Voices-Michael Hutt 1993 Himalayan Voices provides admirers of Nepal and lovers of literature with their first glimpse of the vibrant literary scene in Nepal today. An introduction to the two most developed genres of modern Nepali literature-poetry and the short story-this work profiles eleven of Nepal` s most distinguished poets and offers translations of more than eighty poems written from 1916 to 1986. Twenty of the most interesting and best-known examples of the Nepali short story are translated into English for the first time by Michael Hutt. All provide vivid descriptions of Life in twentieth-century Nepal. This book should appeal not only to admires of Nepal, but to all readers with an interest in non-Western literatures.

Traveling Through the Dark

An Essay on the Nature and Significance of Economic Science-Lionel Robbins 2007 This book by Lionel Robbins first appeared in 1932 as an outstanding English-language statement of the Misesian view of economic method, namely that economics is a social science and must advance its propositions by means of deductive reasoning and not through the methods used in the natural sciences. The case is argued here with patience and attention to scholarly details. The unfortunate second edition of this book, which is more available today, introduces confusions by departing from Austrian microeconomic theory. Thus does the Mises Institute celebrate the 75th anniversary of the first edition with this reprint. "Reading Robbins," writes Samuel Bostaph of the University of Dallas, "is an excellent way of contrasting his explanation of the basic nature of economics with that of the Austrian School, as found in the work of Mises as an extension of Carl Mengers's foundations. Such a reading wonderfully clarifies one's understanding of the basic conception of economics as a science of human action, rather than one of mere 'economizing.' "

Falling Into the Lesbi World

Falling Into the Lesbi World-Evelyn Blackwood 2011 Falling into the Lesbi World offers a compelling view of sexual and gender difference through the everyday lives of tombois and their girlfriends ("femmes") in the city of Padang, West Sumatra. Tombois are masculine females who identify as men and desire women; their girlfriends view themselves as normal women who desire men. Through rich, in-depth, and provocative stories, author Evelyn Blackwood shows how these same-sex Indonesian couples negotiate transgressive identities and desires and how their experiences speak to the struggles and desires of sexual and gender minorities everywhere.

An Episode of War

An Episode of War-Stephen Crane 2009-04-28 Though best known for The Red Badge of Courage, his classic novel of men at war, in his tragically brief life and career Stephen Crane produced a wealth of stories—among them "The Monster," "The Upturned Face," "The Open Boat," and the title story—that stand among the most acclaimed and enduring in the history of American fiction. This superb volume collects stories of unique power and variety in which impressionistic, hallucinatory, and realistic situations alike are brilliantly conveyed through the cold, sometimes brutal irony of Crane's narrative voice.

The Indo-Aryan Languages

The Indo-Aryan Languages-Danesh Jain 2007-07-26 The Indo-Aryan languages are spoken by at least 700 million people throughout India, Pakistan, Bangladesh, Nepal, Sri Lanka and the Maldive Islands. They have a claim to great antiquity, with the earliest Vedic Sanskrit texts dating to the end of the second millennium B.C. With texts in Old Indo-Aryan, Middle Indo-Aryan and Modern Indo-Aryan, this language family supplies a historical documentation of language change over a longer

period than any other subgroup of Indo-European. This volume is divided into two main sections dealing with general matters and individual languages. Each chapter on the individual language covers the phonology and grammar (morphology and syntax) of the language and its writing system, and gives the historical background and information concerning the geography of the language and the number of its speakers.

International Perspectives on Teaching English in Difficult Circumstances

International Perspectives on Teaching English in Difficult Circumstances-Kuchah Kuchah 2018-03-06 This book offers a holistic practitioner and research-based perspective on English Language Teaching and teacher education in difficult circumstances. In addition to extending the current conceptualization of ‘difficult circumstances’ in ELT to include the broader policy issues that may affect ELT in low-to-mid income countries, the book focuses on the challenges faced by practitioners and learners in contexts of confinement, conflict and special education. The chapters in this collection examine the challenges and problems that emerge from the complex current ELT environment, and present examples of contextualized inquiry-based strategies and interventions to address these challenges. Underlining the need to extend the boundaries of the discipline of ELT to include teaching-learning in less privileged contexts, this wide-ranging volume will appeal to students, scholars and practitioners of English Language Teaching.

Argument Selectors

Riders to the Sea-John Millington Synge 1916 A one-act play about the calamities inflicted by the sea on a family of fishermen on the Aran Island of Inishmaan.

Argument Selectors-Alena Witzlack-Makarevich 2019-03-15 Capitalizing on the by now widely accepted idea of the construction-specific and language-specific nature of grammatical relations, the editors of the volume developed a modern framework for systematically capturing all sorts of variations in grammatical relations. The central concepts of this framework are the notions of argument role and its referential properties, argument selector, as well as various conditions on argument selections. The contributors of the volume applied this framework in their descriptions of grammatical relations in individual languages and discussed its limitations and advantages. This resulted in a coherent description of grammatical relations in thirteen genealogically and geographically diverse languages based on original and extensive fieldwork on under-described languages. The volume presents a far more detailed picture of the diversity of argument selectors and effects of predicates, referential properties of arguments, as well as of various clausal conditions on grammatical relations than previously published grammatical descriptions.

Magicians of the Gods

Magicians of the Gods-Graham Hancock 2015-09-10 Graham Hancock's multi-million bestseller Fingerprints of the Gods remains an astonishing, deeply controversial, wide-ranging investigation of the mysteries of our past and the evidence for Earth's lost civilization. Twenty years on, Hancock returns with a book filled with completely new, scientific and archaeological evidence, which has only recently come to light... The evidence revealed in this book shows beyond reasonable doubt that an advanced civilization that flourished during the Ice Age was destroyed in the global cataclysms between 12,800 and 11,600 years ago. Near the end of the last Ice Age 12,800 years ago, a giant comet that had entered the solar system from deep space thousands of years earlier, broke into multiple fragments. Some of these struck the Earth causing a global cataclysm on a scale unseen since the extinction of the dinosaurs. At least eight of the fragments hit the North American ice cap, while further fragments hit the northern European ice cap. The impacts, from comet fragments a mile wide approaching at more than 60,000 miles an hour, generated huge amounts of heat which instantly liquidized millions of square kilometres of ice, destabilizing the Earth's crust and causing the global Deluge that is remembered in myths all around the world. A second series of impacts, equally devastating, causing further cataclysmic flooding, occurred 11,600 years ago, the exact date that Plato gives for the destruction and submergence of Atlantis. But there were survivors - known to later cultures by names such as 'the Sages', 'the Magicians', 'the Shining Ones', and 'the Mystery Teachers of Heaven'. They travelled the world in their great ships doing all in their power to keep the spark of civilization burning. They settled at key locations - Gobekli Tepe in Turkey, Baalbek in the Lebanon, Giza in Egypt, ancient Sumer, Mexico, Peru and across the Pacific where a huge pyramid has recently been discovered in Indonesia. Everywhere they went these 'Magicians of the Gods' brought with them the memory of a time when mankind had fallen out of harmony with the universe and paid a heavy price. A memory and a warning to the future... For the comet that wrought such destruction between 12,800 and 11,600 years may not be done with us yet. Astronomers believe that a 20-mile wide 'dark' fragment of the original giant comet remains hidden within its debris stream and threatens the Earth. An astronomical message encoded at Gobekli Tepe, and in the Sphinx and the pyramids of Egypt,warns that the 'Great Return' will occur in our time...

The Tell-Tale Heart

The Tell-Tale Heart-Edgar Allan Poe 2020-08-26 Poe’s preference for not naming his narrators is potent once again in "The Tell-Tale Heart", a story that is trying so hard to appear sane, but fails miserably in the end. With minute preparations, perfect calculations, and even more precise execution of the conceived gruesome act, the narrator successfully fulfils his purpose, only to be lost in a battle with his sanity and guilt afterwards. Backed by the numerous movie and theatrical adaptations, the story is considered one of Poe’s most popular and critically acclaimed. Edgar Allan Poe (1809-1849) was an American poet, author, and literary critic. Most famous for his poetry, short stories, and tales of the supernatural, mysterious, and macabre, he is also regarded as the inventor of the detective genre and a contributor to the emergence of science fiction, dark romanticism, and weird fiction. His most famous works include "The Raven" (1945), "The Black Cat" (1943), and "The Gold-Bug" (1843).
