The Courage of Sarah Noble -Alice Dalgliesh 2012-05-15 In this Newbery Honor book classic, young Sarah learns how to be brave even when the world is strange and new. In 1707, young Sarah Noble and her father traveled through the wilderness to build a new home for their family. “Keep up your courage, Sarah Noble,” her mother had said, but Sarah found that it was not always easy to feel brave inside. The dark woods were full of animals and Indians, too, and Sarah was only eight! The true story of Sarah’s journey is inspiring. And as she cares for her father and befriends her Indian neighbors, she learns that to be afraid and to be brave is the greatest courage of all. The New York Times Book Review described this book as one “to be long remembered for its beautifully written simplicity and dignity.”
Recovering -Richie Sadlier 2019-10-04 When a career-ending injury saw former Ireland and Millwall striker Richie Sadlier retire from football at age 24, his life spiralled out of control. Without structure or a sense of purpose, and fuelled by a dependency on alcohol, he spent years running from the dark memories and feelings that had haunted him since childhood. Until one day he hit rock bottom and decided to confront his demons. Recovering written with Dion Fanning is about a life shaped by efforts to escape, and how it is possible to rebuild that life, piece by piece, with the right help. Inspiring and ground-breaking, it is an important reflection on the need to move away from perceptions of shame in our discussions about mental health, sex, relationships and addiction.

Growing Readers -Kathy Collins 2004-01-01 Primary-grade teachers face an important challenge: teaching children how to read while enabling them to build good habits so they fall in love with reading. Many teachers find the independent reading workshop to be the component of reading instruction that meets this challenge because it makes it possible to teach the reading skills and strategies children need and guides them toward independence, intention, and joy as readers. In Growing Readers, Kathy Collins helps teachers plan for independent reading workshops in their own classrooms. She describes the structure of the independent reading workshop and other components of a balanced literacy program that work together to ensure young students grow into strong, well-rounded readers. Kathy outlines a sequence of possible units of study for a yearlong curriculum. Chapters are devoted to the individual units of study and include a sample curriculum as well as examples of mini-lessons and reading conferences. There are also four “Getting Ready” sections that suggest some behind-the-scenes work teachers can do to prepare for the units. Topics explored in these units include: print and comprehension strategies; reading in genres such as poetry and nonfiction; connecting in-school reading and out-of-school reading; developing the strategies and habits of lifelong readers. A series of planning sheets and management tips are presented throughout to help ensure smooth implementation. We want our students to learn to read, and we want them to love to read. To do this we need to lay a foundation on which children build rich and purposeful reading lives that extend beyond the school day. The ideas found in Growing Readers create the kind of primary classrooms where that happens.
