**Breaking the Da Vinci Code**-Darrell L. Bock 2004-04-19 Many who have

read the New York Times bestseller *The Da Vinci Code* have questions that arise from seven codes-expressed or implied-in Dan Brown's book. In *Breaking the Da Vinci Code: Answers to the Questions Everyone's Asking*, Darrell Bock, Ph.D., responds to the novelist's claims using central ancient texts and answers the following questions: Who was Mary Magdalene? Was Jesus Married? Would Jesus Being Single be Un-Jewish? Do the So-Called Secret Gnostic Gospels Help Us Understand Jesus? What Is the Remaining Relevance of *The Da Vinci Code*? Darrell Bock's research uncovers the origins of these codes by focusing on the 325 years immediately following the birth of Christ, for the claims of *The Da Vinci Code* rise or fall on the basis of things emerging from this period. *Breaking the Da Vinci Code*, now available in trade paper, distinguishes fictitious entertainment from historical elements of the Christian faith. For by seeing these differences, one can break the *Da Vinci* code.

**Life as a Weapon**-Riaz Hassan 2014-09-11 Suicide bombing has become a weapon of choice among terrorist groups because of its lethality and ability to cause mayhem and fear. But who carries out these acts, and what motivates them? By undertaking analysis of the information in the most comprehensive suicide terrorism database in the world, *Life as a Weapon* seeks to question and in turn undermine the common perception that the psychopathology of suicide bombers and their religious beliefs are the principal causes. Instead, the book presents a cocktail of motivations that drive suicide bombers, and explains how their actions achieve multiple purposes - community approval, political success, liberation of the homeland, personal redemption or honour, refusal to accept subjugation, revenge, anxiety, defiance. Since the configuration of these driving factors is also specifically related to the circumstances of political conflict in each different country, it is only through gaining understanding and knowledge of these conditions that appropriate policies and responses can be developed that will protect the public and counter the scourge of suicide bombings. *Life as a Weapon* is a pivotal text in the discussion surrounding suicide bombings, and as such it is of relevance to undergraduate students, postgraduates, and researchers working in areas such as Security Studies, Middle Eastern Studies, Terrorism, Criminology and Political Science.

**Embattled Saints**-Kenneth P Lizzio 2014-04-29 In the West, Islam has replaced Communism as the new bugbear, while Sufism, Islam's mystical dimension, is often dismissed as the delusions of an irrational and backward people. Ken Lizzio corrects such misperceptions in this firsthand account of the year he spent in 1991 living with the head of the Naqshbandis, Afghanistan's largest Sufi order. He presents the order in all its dimensions—social, economic, political, and spiritual—at a pivotal moment in history. He also gives a rare glimpse of everyday life in an Afghan Sufi school and of how the school has coped with the upheavals in its country. Poignantly, the Naqshbandi way of life faces threats to its very existence. One threat lies in the creeping secularization of Islamic society, another in the dismissal of Sufism by various fundamentalist Islamic sects claiming the franchise on truth. But historically, Lizzio points out, Sufism has always been Islam's wellspring for spiritual revival. And because Sufis deal in matters that transcend time and cultures, they help outsiders understand not only the true nature of Islam, but the deeper meaning of all religions. The sound of that meaning echoes throughout this eloquent and fascinating memoir.
